Introduction

This booklet contains lists of words and ideas to help in the teaching of the Key Stage 2 spelling objectives set out in the *National Literacy Strategy Framework for Teaching*. They are drawn from the Word Level strand, predominantly from the section entitled 'Spelling Rules and Conventions', but with a few from the 'Vocabulary Extension' objectives.

A page is devoted to each individual objective, although there are obvious links between objectives, particularly those covering prefixes, suffixes, roots and modified endings. To ensure a smooth incline in learning, you will find it useful to look at examples from previous and later year groups to see how these strands develop.

The word lists are not exhaustive; they have been selected as the most common and appropriate words for the age group, and the most useful for teaching. Families of words have been represented by a single word rather than listing every variation.

Some objectives are revisited or, more accurately, approached from different angles. For example, the choices involved in putting **s** onto the end of a word are tackled as part of pluralisation, tense and the use of suffixes. This is a deliberate attempt to anchor key rules securely.

For each objective you will find not only a bank of useful words, but suggestions for teaching the objective in whole-class and group time. At the bottom of each page you will usually find notes which include the rules or conventions themselves.

For more specific ideas and lesson materials, look in the orange National Literacy Strategy booklet for Module 2 'Word Level Work: Activity Resource Sheets'. For information, call 01536 741171 or visit our web site at www.standards.dfee.gov.uk.

This booklet is issued as an extra support to the National Literacy Strategy training materials for 1999–2000, which include a 1.5 hour session on spelling for each year of Key Stage 2. Contact your Local Education Authority's Literacy Consultant/s for further details. Extracts from the training which may prove useful have been provided in the Appendices.

Objective 8

How the spellings of verbs alter when **ing** is added

Year 3 objectives

Whole-class approaches

- Collect up a list of ing words and their base words to compare. Investigate the effect of adding ing to the words in the 'ending in e' and 'short vowels' lists.
- Provide some base words and ask children to add ing on individual whiteboards to show you.

Group task

Card-sorting activities.

Extension activity (very challenging)

- Add **ing** to words ending in
 - c (add in a k);
 - vowel + y (just add);
 - I (double the I).

Notes

• Most words just add ing.

- Words ending in **e** drop the **e** to add **ing**.
- Words with a short vowel before the final letter double the final letter.

Objective 9

To investigate and learn to use the spelling pattern **le** as in *little, muddle, bottle, scramble, cradle*

Whole-class approaches

- Collect a list of **le** words over time, from shared text or by brainstorming. Investigate the list for familiar patterns, particularly for the letters that tend to precede the **le**.
- Experiment in adding suffixes such as ly, ing, and draw attention to the dropping of the e.

Group tasks

- Sort the list of words into family groups, e.g. those preceded by double letters, those preceded by ck, etc.
- Word-hunt for more examples.
- Word-hunt for el and al words.

ckle	able	Double letter + le		cle	dle
chuckle prickle tickle cackle trickle pickle	able table vegetable fable cable reliable probable	middle giggle guzzle toggle kettle cattle stubble little bubble apple ripple saddle paddle	ripple nettle bottle muddle hobble puddle cuddle wriggle rubble nozzle sizzle wobble fiddle	uncle article cycle icicle obstacle miracle circle particle cubicle bicycle	candle handle needle noodle poodle bundle

ble	ible	ple
double trouble bible fable humble tumble grumble rumble	sensible responsible possible horrible terrible	example dimple simple crumple ample sample

- **Ie** is much more common than **eI** or **aI**.
- It is easy to distinguish between cel and cle because the c is always soft in the former and hard in the latter. (Compare parcel and particle).
- The vast majority of **le** endings are preceded by letters which feature an ascender or descender.
- ◆ al words include *pedal*, *metal*, *cannibal*, *medal*, *petal*, and the al suffix appears in words like *medical* and *magical*.
- el was originally a suffix meaning *small*. Examples include *satchel*, *label*, *model*, *angel*, *parcel*, *quarrel*, *cancel*, *excel*, *channel*, *funnel* and *tunnel*.
- There are a huge number of other le words which are part of a split digraph, e.g. sale, tale, whole, mile, etc. These have been excluded from the list. This particular le ending does not produce an extra syllable in the way it does in the list above.

Objective 10

To recognise and spell common prefixes and how these influence word meanings, e.g. **un**, **de**, **dis**, **re**, **pre**

Whole-class approaches

- Use magnetic letters to form prefixes for pre-written words on whiteboard; slide them into place and ask how the prefixes have changed the meaning of the words, and what the prefix means.
- Make sets of prefixes and words, hand them out and get children to find a 'partner'. Break the pairs and ask them to find new partners. Each child keeps a note of words created until they have done as many as they can. Compare lists.
- Generate words using the same prefix.

Group tasks

- Play Kim's game using 30 assorted word cards from the list below, children hunt for pairs in turns and use checklist for answers.
- Investigate other prefixes, working out the meaning of the prefix.

Extension activities

- Play Definitions game children provide a definition and challenge the class to find the right word.
- Find words using the letter sequence but not as a prefix, e.g. *disturb, devil, read, preach* and *uncle.*

un	de	dis	re	pre
unable unwell unhappy untidy untrained unlucky unpopular unpick unseen unusual undo untie unzip unofficial	demist deform decamp decode defuse deflate debug de-ice decompose	dishearten dislike dislodge disown displease disqualify disappoint disagree disappear disconnect dishonest disinfect disembark disobey	rebound rebuild recycle recall refill reform retreat recede return replace revisit replay rewrite repay	precaution predict previous premature preface prefix prepare

- The word *prefix* has the prefix **pre**, and can help in your definition.
- un means 'not'; de means 'making the opposite of'; dis means 'not', 'the opposite of'; re means 'again'; pre means 'before'.
- A hyphen sometimes appears between the prefix and the word, e.g. *de-ice*.

Objective 11

To use their knowledge of prefixes to generate new words from root words, especially antonyms, happy/unhappy, appear/disappear

Whole-class approaches

- Write pairs of words (*happy/unhappy*) in random order on the whiteboard – children sort and define how the antonym has been created.
- Play Make an Antonym game, using flashcards from the lists of words without prefixes below.
- Place Post-It notes over prefixes in antonyms in shared texts ask children to work out the appropriate choice, or hold up correct prefix from a selection.

Group tasks

- Play Kim's game place cards upside down and hunt out the pairs of words and their opposites.
- Using prefixes covered so far, have the children select one and write down an antonym – three pairs of children in a group in a Beat-the-Clock activity.

Extension activities

- Children select an antonym, then come up with synonyms e.g. unhappy, miserable, depressed; unseen, invisible, camouflaged.
- Children prepare dominoes antonym one side, synonym on the other to be used by other groups.

un		dis		others	
well	unwell	appear	disappear	sense	nonsense
tidy	untidy	arm	disarm	stick	non-stick
usual	unusual	agree	disagree	fiction	non-fiction
certain	uncertain	approve	disapprove	clockwise	anti-clockwise
friendly	unfriendly	connect	disconnect	frost	defrost
do	undo	honest	dishonest	compose	decompose
able	unable	like	dislike	place	misplace
selfish	unselfish	please	displease	behave	misbehave
seen	unseen	qualify	disqualify	possible	impossible
kind	unkind	allow	disallow	probable	improbable
pleasant	unpleasant	comfort	discomfort	regular	irregular
popular	unpopular	trust	distrust	legal	illegal
happy	unhappy	order	disorder	sensitive	insensitive
fair	unfair	obey	disobey	visible	invisible
lucky	unlucky	continue	discontinue	convenient	inconvenient

- Just add the prefix a no-nonsense rule. This accounts for the double n in unnecessary and the double s in dissatisfied.
- Useful for handwriting practice.
- Stressing the meaning of prefixes is a support for spelling and vocabulary.

Objective 8 (1 of 2)

How words change when **er** and **est** are added

Whole-class approach

 Identify words ending in er and est in Shared Reading/Writing – show how changing the suffix changes the meaning.

Group tasks

- Play a matching game base words have to be paired with suffixes.
 Position additional function cards (e.g. 'Take away the final e') between base words and suffixes where appropriate.
- Investigation find words that end with er and est and group them according to the spelling rule.

Extension activities

- Find exceptions, e.g. good, better, best; bad, worse, worst; far, farther, farthest.
- Investigate the use of more and most, e.g. more curious, more intelligent, more sensible.

Typical \	words		e words		
quick	quicker	quickest	nice	nicer	nicest
cold	colder	coldest	late	later	latest
long	longer	longest	close	closer	closest
tall	taller	tallest	ripe	riper	ripest
rich	richer	richest	rude	ruder	rudest

Short (r	ap) vowels		y words		
big hot thin fat	bigger hotter thinner fatter	biggest hottest thinnest fattest	happy chilly funny crazy lucky	happier chillier funnier crazier luckier	happiest chilliest funniest craziest luckiest

- Most words just add **er** and **est**.
- Words ending in **e** drop the **e** and take the suffix.
- Words containing a short vowel before the final consonant double the consonant.
- Words ending in **y** change **y** to **i** to add the suffix.

SPELLING BANK

Year 3 Term 2

Objective 8 (2 of 2)

How words change when **y** is added

Whole-class approaches

- Identify words ending in y in Shared Reading/Writing show how changing the suffix changes the meaning.
- Children attempt words on individual whiteboards and then show them.
- Investigate why some base words drop e or double their consonants when y is added. See below.

Group task

• Find further examples.

Typical words Short short		word, (rap) vowel	e words	5	
crisp	crispy	fun	funny	grease	greasy
smell	smelly	fur	furry	haze	hazy
cheek	cheeky	fat	fatty	laze	lazy
water	watery	run	runny	bone	bony
fuss	fussy	nut	nutty	smoke	smoky
full	fully	sun	sunny	stone	stony

- Most words just add y.
- Double the final consonant if it is preceded by a short (rap) vowel.
- ◆ Words ending in digraph e drop the e to add the y.

Objective 9

To investigate and identify basic rules for changing the spelling of nouns when **s** is added

Whole-class approaches

- Investigation use word lists or card-sorting. Work out the rules.
- Clap out syllables for children to work out if they can hear the extra syllable, and thus add es (see the second of the *Notes* below).
- Use flashcards for s and es ask children to hold up the correct ending for words given.

Group task

 Play card games like Gin Rummy in which singulars that use the same ending are collected up.

Extension activity

- Plural investigations
 - words ending in vowels (es unless preceded by another vowel);
 - words ending in f (ff add s; f or fe use ves);
 - plurals that don't use **s** at all, e.g. *children, men, women, teeth, oxen, geese, feet, deer, fish, sheep, mice, dice, lice, larvae, antennae*, etc.

Words as	Words as starting points for investigation					
ash	ashes	box	boxes	brush	brushes	
bush	bushes	church	churches	dish	dishes	
glass	glasses	inch	inches	kiss	kisses	
inch	inches	sandwich	sandwiches	tax	taxes	
watch	watches	fox	foxes	witch	witches	
game	games	rope	ropes	shoe	shoes	
table	tables	time	times	tune	tunes	
pen	pens	bean	beans	tick	ticks	
cup	cups	pocket	pockets	school	schools	
pond	ponds	window	windows	lip	lips	
book	books	desk	desks	clasp	clasps	
army	armies	party	parties	baby	babies	
berry	berries	city	cities	fly	flies	
jelly	jellies	penny	pennies	puppy	puppies	
boy	boys	toy	toys	key	keys	
ray	rays	display	displays	monkey	monkeys	
delay	delays	day	days	donkey	donkeys	

- Most words add s.
- Add es if the word ends in a hissing/buzzing/shushing sound. Another way to remember this is to add es if you can hear an extra syllable when you make it plural. (The e is added to make the plural easier on the tongue, putting a buffer between too many s sounds.)
- ♦ Words ending in e just add s.
- Words ending in y add s if the final letter is preceded by a vowel. If not, change the y to i and add es.

Objective 10

To investigate, spell and read words with silent letters, e.g. *knee, gnat, wrinkle*

Whole-class approaches

- Read a specially prepared text pronouncing all silent letters. Ask the children to notice and then comment on the silent letters. Can they see patterns or do they know other examples?
- Place Post-It notes over the silent letters. Ask children to guess the silent letter underneath. Alternatively, write on the board a random list with silent letters deleted, and invite children to insert the letter.
- Investigation list words on boards and ask children if they can see any common patterns (e.g. silent k at the beginning is always followed by n, and the n is always followed by a vowel).
- Make flashcards for gn and kn. Call out examples from Lists 1 and 2 below and ask the children to hold up the appropriate silent-letter card.

Group tasks

- Provide a set of cards in which the silent letter(s) have been separated from the rest of the word. Children match up letters with cards.
- Make collections of silent-letter words and work out patterns for different letters.
- Play Kim's game children turn over two cards and keep any pair that has the same silent letters if they can pronounce the word.

List 1	List 2	List 3	List 4	List 5	List 6
knuckle knee knit knickers knob knife knight knock knock knot kneel know	gnomes gnat gnaw gnu gnash gnarled	write wrapper wrong wrist wreck wretch wrestle wrapper wrinkle sword answer	rhyme rhubarb wheat whale when whine rhino honest chemist whirl	plumb dumb numb bomb tomb lamb thumb crumb debt doubt	calf half calm salmon chalk folk yolk could would should

- Silent b occurs after m, before t; silent k and silent g are found before n; silent l follows vowels a, o and ou it produces a flat-sounding vowel; silent w often precedes r.
- The term 'silent letter' is perhaps misleading because kn is a digraph representing one phoneme in the same way that th or es do. Interestingly, however, most of the examples above have at some time in history been pronounced out loud, and have been silenced by fashion and language evolution. Changing pronunciation accounts for many unexpected aspects of the English spelling system.

Objective 12

To recognise and generate compound words, e.g. *playground*, *airport, shoelace*, *underneath;* and to use this knowledge to support their spelling

Whole-class approaches

- Display a selection of compound words. Invite children to spot what they have in common. Introduce the term *compound word*.
- Display the word *time*. Ask children to offer words that can be placed before or after *time* to make a list of compound words. Repeat using *green*, *day*, *eye* and *sand*.
- Use a page of a TV listings and invite children to take time out in pairs to identify as many programme names as they can which are compound words. Make a class list.

Group tasks

- Make a list of group addresses. Discuss and highlight any road names that combine two/three words to make a compound word.
- Use maps and atlases to collect place names that are compound words.
- Use an illustration of a Greek myth to spot objects that are compound words, e.g. *footpath, seaside, eyebrow.*
- Collect and categorise compound words, e.g. verbs/nouns/prepositions.
- Use cards containing common base words to create lists of compounds.

Useful ba words	ase	High-frequency words		Examples	Harder examples
sun time man play mouth hand day green eye sand body	one woman no any some where thing head every out in	everyone everybody everything nowhere no-one nobody nothing anywhere anyone anybody anything	someone somebody something somewhere	churchyard football waistband paintbrush upstairs bricklayer blackboard weekend earthworm goalkeeper playground	sideboard cupboard breakfast deadline gunpowder windmill bonfire dustbin clockwise grandmother chambermaid

- Many compounds have historical roots to deduce or research (see final column).
- Compounds are two or three whole words that combine to make one.
- Compounds will most often be nouns.
- The spelling of the base words usually remains unchanged.

Objective 13

To recognise and spell common suffixes and how these influence word meanings, e.g. **Iy**, **ful**, **less**

Whole-class approaches

- Create class collections of words with common suffixes and group them (e.g. see table below).
- Investigation seek patterns, base words and generalisations about spellings, e.g. Why is 'islander' *island* + er but *voyager* = *voyag* + er? What do the suffixes mean?
- Create new words fit base words to suffixes to create new words and define their meanings, e.g. Oncer.
- Draw together groups of words created by adding different suffixes to a base word, e.g. *careful, careless, carer, carefully.*

Group tasks

- Play a matching card game matching the root word to its suffix.
- Use card wheel root words on the front wheel and suffixes on the rear wheel. Real words can be identified and new words can be created.

ly	ful	less	er	able
kindly	wishful	careless	teacher	reliable
friendly	hopeful	thoughtless	reader	drinkable
properly	sorrowful	homeless	driver	touchable
actually	painful	lifeless	farmer	sinkable
especially	successful	fearless	Londoner	breakable
eventually	hateful	jobless	islander	enjoyable
originally	forgetful	thankless	villager	avoidable
personally	beautiful	headless	voyager	readable
weekly	resentful	speechless	manager	unavoidable
likely	pitiful	endless	teenager	arguable
really	merciful	merciless	baker	probable

- ◆ Iy, ful and less are consonant suffixes. In most cases, the suffix is added without adaptation to the root word, except for words ending in y, which change to an i.
- er and able are vowel suffixes. If the root word ends in an e then it must be dropped before the suffix is added, e.g. *describe* + *able* = *describable*. If it ends in y, change the y to an i.
- ly means 'in this manner'.
- **ful** means 'full of'.
- less means 'without'.
- er means 'for' or 'belonging to'.
- **able** means 'able to'.

Objective 14

To use their knowledge of suffixes to generate new words from root words, e.g. proud/proudly, hope/hopeful/hopeless

Whole-class approaches

- Collect examples of words with suffixes, generalise about their effects on the base word, especially if it ends in e or y. Use the patterns to generate additional examples (real and invented) that belong in those groups.
- Brainstorm words with a particular suffix. Groups compete against the clock to collect most words.
- Use 'show me' cards present a base word (see below) and ask children to brainstorm and show suitable suffixes.

Group tasks

- Find/invent synonyms for given words using the same suffix, e.g. friendless/mateless; basinful/bowlful; fairly/justly, and work out the meaning of the suffixes.
- Play 'Find the word' from a given definition and a suffix find the right word, e.g. 'Which **ful** means "longing for something"?'

Some useful suffixes							
ship	ful	ness	ment	hood	less		
er	est	Iy	ish	dom	like		

- The function of these suffixes is to change one part of speech into another, e.g. a noun to an adjective (*friend/friendly*).
- In some cases the root word needs modification before the suffix can be added, e.g. words ending in y and e.

Objective 15

To use the apostrophe to spell shortened forms of words, e.g. *don't, can't*

Whole-class approaches

- Display or write newspaper headlines which feature contraction apostrophes. Highlight the apostrophes. Teach the use of the apostrophe. Invite children to try placing apostrophes in words already contracted, but with the apostrophe removed. Emphasise that the apostrophe represents missing letters and not the joining of the two words.
- List the full forms. Invite the children to contract. Also try this vice versa offer the contraction and invite children to expand.
- Use magnetic letters to demonstrate the replacement of letters with an apostrophe. Alternatively, use children holding whiteboard letters.
- Generalise about the type of words that attract contractions (verbs and pronouns).

Group tasks

- Check own written work.
- Word hunts.
- Discuss why a writer might choose an apostrophised form rather than the full form.

do notdon'tcannotcan'tis notisn'tdoes notdoesn'twill notwon't	l had I would I have I will I am	l'd l'd l've l'll l'm	she is/has she's he is/has he's it is/has it's there is/has there's
---	--	-----------------------------------	--

- The contractions in this list are drawn from the high-frequency word lists.
- Apostrophes are used where two words have been joined and some letters missed out so that a contraction is formed.
- Note the homophone issue (*its/it's, there's/theirs*).
- Contractions occur more frequently in informal language.

Objective 8

Identify short words within longer words as an aid to spelling

Whole-class approaches

- Show a word on a magnetic board/class board. Ask the children to identify other words within it – the letters of these words must appear consecutively within the word on display.
- Focus on high-frequency words and invite suggestions for illustrating them to make the words memorable.

Group tasks

- Which of the children's names has the most words in it?
- Make a collection of subject-specific words which have other words within them, e.g. topic words, PE words. Give the collection to another group and challenge them to find the same (or a greater) number of words within words.
- Find a word with seven words within it. Which was the shortest word which had seven other words within it?
- Survey which are the most commonly occurring words within words.

Another	Something	Whatever	Father
a an no not other the he her	so some met thin in thing	what hat hate at ate eve ever	fat at the her
Mother	Pretending	Constable	High-frequency words
moth other the he her	ten tend ending tending din in	con on stable table stab tab able	that them then when want what where your friend

- Recognising words within words develops visual spelling strategies. It is important therefore that the words discovered have their letters appearing consecutively in the original word.
- Sometimes the words within words are roots which preserve their original meaning, e.g. grand + mother. Sometimes they are incidental.

Objective 9

To recognise and spell the prefixes **mis**, **non**, **ex**, **co**, **anti**

Whole-class approaches

- Display a list of words beginning with these prefixes and teach their meaning directly (see *Notes*).
- Look out for words in shared texts which have any of these prefixes. Cover with Post-It notes and ask children to work out the relevant prefix.
- Play Prefix Charades.
- Use Prefix Fans teacher provides the root word and children select and show a suitable prefix.

Group tasks

- Children scan real texts e.g. adverts, newspapers and highlight prefix words with these prefixes.
- In pairs, children select and test each other on the spelling and meaning of words listed.

Extension activity

 Produce a 'new' list of words to promote an imaginary product, e.g. antiburglar, anti-frizz! Create an advertisement for a product.

mis	non	ex	со	anti
misbehave miscalculate misplace miscount misdeal misfire misfortune mishear misinform misread mistake	non-stick non-stop non-smoker non-violent non-starter nonsense non-fiction non-drip	exit extend explode excursion exchange export exclaim external expel exterior exile	co-education coincidence co-operate co-star co-writer	antidote antibiotic antifreeze antiseptic anti-clockwise

- mis means 'wrong', 'false'; non means 'not', 'opposite of'; ex means 'out' or 'outside of'; co means 'joint', 'together'; anti means 'against'; col/l, comm, corr are based on co and have the same meaning.
- New hyphenated words are appearing all the time, especially in advertising.

Objective 10

To use their knowledge of these prefixes to generate new words from root words, e.g. *lead/mislead*, *sense/nonsense*, and to understand how they give clues to meaning, e.g. *extend*, *export*, *explode; mislead*, *mistake, misplace*

Whole-class approaches

- Revise prefixes covered already ask for two examples for every prefix.
- Revise by matching up sets of 'prefix' cards and 'meaning' cards.
- Write down ten words from the list of root words below, and ask them to experiment orally, making new words by adding different prefixes. Do they sound correct? Which words are more likely to be correct? How do we know? How can we check?

Group task

 Match prefix cards, as above, but using unfamiliar prefixes. Invite children to match them up by working out their meanings from known words.

Extension activity

- Thesaurus work
 - look up *beautiful* list synonyms and experiment with adding prefixes;
 - make a list of 'bad behaviour' words and present at plenary unhelpful, antisocial, misbehaviour.

Prefixes and meanings		More prefixes and meanings		Roots to work wit	h
re	again	pre	before	cool	sleep
de	undo	non	not	face	awaken
anti	against	inter	between	make	act
bi	two	ex	out of	dead	live
contra	against	un	not	grow	marine
in	not	sub	under	place	visit
ab	away from	mis	wrong	clean	write

Notes

Remembering prefixes and their meanings helps both spelling and vocabulary.

Objective 11

To use the apostrophe to spell further contracted forms of words, e.g. *couldn't*

Whole-class approaches

- Remind the class of previous work on contractions. Display or write newspaper headlines which feature apostrophes for contractions from the word bank. Highlight the apostrophes. Invite the children to offer the extended forms and identify the missing letters. Emphasise that the apostrophe represents missing letters and not the joining of two words.
- Use magnetic letters to demonstrate the replacement of letters with an apostrophe. Alternatively, children could use individual whiteboards to attempt contractions.

Group tasks

- Word hunt and classify according to word contracted, e.g. not, is, are, have, had, would, us (let's).
- Using selected newspaper headlines, invite groups to discuss what the apostrophe represents and write in the missing letters above. Also discuss the reason for choosing the apostrophised form.
- Write two paragraphs describing a robbery one a formal police report; the other by the victim. Why choose apostrophes?
- Use some of the words in the last column of the table below to generate discussion and find further examples of poetic licence, dialect and word play.

Pronouns				Other con	tractions
l'm You're He's She's We're They're	l'II You'II He'II She'II We'II They'II	l've You've He's She's We've They've	l'd You'd He'd She'd We'd They'd	can't won't shan't aren't hadn't haven't couldn't weren't	oʻclock 'tis ma'am mix 'n' match Toys 'Я' Us salt 'n' vinegar pick 'n' mix tell 'em

- Apostrophes are used where two or more words have been joined and some letters missed out so that a contraction is formed.
- Contractions occur more frequently in informal language.
- *Won't* and *shan't* are unusual because the base words have been modified.
- In older texts, *would, should* and *could* are shortened using *'ld*.

Objective 14

To explore homonyms which have the same spelling but multiple meanings and explain how the meanings can be distinguished in context, e.g. *form* (shape or document), *wave* (gesture, shape or motion)

Whole-class approaches

- From a collection of mixed words, invite the children to spot any that have two meanings. Teach the term *homonym*.
- Display pairs of sentences which use the same homonyms. Ask the children to read them aloud. Discuss how they worked out which image to bring to mind. Emphasise the significance of context and meaning.
- Show sets of five words each set contains one word which is not a homonym. Play Spot the Odd One Out.
- Show a joke where word play has used homonyms. Discuss how humour was created.
- Display pairs of sentences that use words from the list below which have the same spelling but different meaning **and** pronunciation. Ask children to read aloud. How did they know which pronunciation to use? Emphasise the importance of context to make sense.

Group tasks

- Make sets of 'odd one out' for other groups to guess.
- Search for funny poems, jokes and puns. Explain how they work.
- Compose pairs of sentences using homonyms, e.g. Mum gave her son a wave. Sam jumped over the wave. Illustrate humorous absurdities, e.g. Sam jumping over his mother's waving hand.

Homony	ms				Contrasting sounds
age	crane	letter	leaves	watch	bow
fit	club	spot	flat	dear	tear
train	bank	grate	table	jam	row
fat	light	snap	safe	arms	wind
rose	pop	warm	plain	wave	lead
form	tug	lead	plane	last	wound
ring	stand	race	float	bat	sow
sound	book	gum	foot	yard	read

Notes

 Homonyms lend themselves to the discussion of grammar, e.g. their relationship to other words in a sentence shows whether they are a verb, a noun or an adjective.

Objective 5

To spell two-syllable words containing double consonants, e.g. *bubble*, *kettle*, *common*

Year 4 Objectives

Whole-class approaches

- Warm up with oral activities distinguishing between long and short (rap) vowels.
- Use the contrasting words list to show how long vowels in the middle of words are followed by one consonant, but short vowels are followed by two.
- Distribute prepared cards among the children and ask each child in turn to read aloud their word. Ask the rest to work out whether it has a long or short sound, and therefore one or two consonants. The child holds up their card to show the right answer.
- Use whiteboards so that children can attempt simple words applying this rule.

Group tasks

- Make lists of family or topic words with double letters after short vowels (see below).
- ◆ Learn the high-frequency words (see below).

Extension activities

- Create a double-letter alphabet, e.g. rabbit, sudden, scuffle.
- Work out which consonants never make doubles and why not.
- What happens in words of more than two syllables?
- Exceptions: mod words (modern, modest, model, etc.)

Contrasting	Contrasting words					
diner	dinner	writing	written	hoping	hopping	
biter	bitter	taping	tapping	super	supper	
coma	comma	pole	pollen	lady	laddy	
Thematic w	Thematic words					
Adjectives	happy	messy	silly	jolly	funny	
Animals	rabbit	puppy	kitten	otter	hippo	
Verbs	grabbed	messed	kissed	bossed	fussed	
Cooking	batter	butter	pepper	carrot	coffee	
Garden	apple	willow	holly	cherry	berry	
High-freque	ency words					
common	rotten	letter	tennis	better	happy	
follow	sudden	stopped	swimming	penny	mummy	
daddy	puppy	dinner	shopping	getting	silly	
pillow	swallow	carry	summer	butter	cotton	
funny	running	happy	sorry	written	kettle	

- Double the letter after a short (rap) vowel in the middle of words.
- No words use hh, jj, kk, qq, vv, ww, xx.
- Some imported words use **cc** (*broccoli, cappuccino*).

Objective 6

To distinguish between the spelling and meanings of common homophones, e.g. to/two/too; they're/their/there; piece/peace

Whole-class approaches

- Teach words and meanings directly, and display.
- Place Post-It notes over homophones in shared texts and ask children to work out which one fits.
- Make individual flashcards (e.g. there/their) for children and ask them to hold up the correct spelling in response to a sentence in which the meaning is clear.
- ◆ Riddles 'What opens locks and is always found beside water?'

Group tasks

- Play Kim's game place cards face-down and hunt out the pairs. You can claim a pair if you can prove you know the correct meaning using a dictionary.
- Play Sound Snap with a limited number of priority words.
- Invent mnemonics and ways of working out the correct choice.
- Play Beat the Spellchecker write a 100-word story or report that beats the spellchecker. Team with the most cheats wins.

Extension activities

- Look for homonyms (same spelling, different meanings, e.g. *bear*).
- Research history of words to explain the origin of some homophones' spellings.

were	where	we're	you	yew	ewe
their	they're	there	too	two	to
be	bee	see	sea	heard	herd
new	knew	no	know	might	mite
right	write	morning	mourning	place	plaice
through	threw	great	grate	eyes	ice
hole	whole	I	eye	for	four
are	our	in	inn	of	have

- The homophones in this list apply to the high frequency word list only. For further homophones, consult Y5.T2.O6.
- Many homophone choices are best taught as a grammatical issue, e.g. there/their.
- Analogy with family groups can be helpful, e.g. *our, your; here, where, there.*

Objective 7

To spell regular verb endings **s**, **ed**, **ing** (link to grammar work on tenses)

Whole-class approaches

- Investigate how each ending is added in each of the four cases listed below. Use lists to encourage children to generalise and add further examples.
- Whiteboard activity children write correct form in response to a spoken word.
- Play human spellings. Distribute large letter cards (or create using individual whiteboards), including plenty of y, i, e and s cards. Invite children to group together to create a verb ending in y, then ask the i, e and y children to form a 3rd person singular form.

Group tasks

- Play card sorts, matches and games, e.g. collect word families, collect es endings.
- Use a selection of words on the list to make word sums for the children, e.g. drop + ed = ____, save + ing = ____, wash + s = ____
- Make concertina books which incorporate a time line. Children record personal experience or historical knowledge using words on the list, e.g. When I was three I looked like this ... Now I look like this The Tudors travelled by horse In the future we'll all be travelling in electric cars. Use writing frames to help less confident children.
- Use the lists below for word investigations, e.g. can children spot the rule for doubling of consonants? Can they find further examples of the word families on the lists below?

Typical of mo	st words		Ending in co	Ending in consonant + y		
cooks plays invents jumps looks shows works	cooked played invented jumped looked showed worked	cooking playing inventing jumping looking showing working	carries cries marries relies spies tries fries	carried cried married relied spied tried fried	carrying crying marrying relying spying trying frying	
Short vowels			Ending in his	ssing/buzzing sour	nds	
drags drops grabs hugs shops stops	dragged dropped grabbed hugged shopped stopped	dragging dropping grabbing hugging shopping stopping	touches washes buzzes hisses rushes fixes	touched washed buzzed hissed rushed fixed	touching washing buzzing hissing rushing fixing	
Ending in e			fizzes wishes	fizzed wished	fizzing wishing	
saves notes explores	saved noted explored	saving noting exploring			Ŭ	

- It is difficult to practise the future tense, not least because the future tense does not exist as such in English, but is formed in combination with other verbs (I will go, I am going to go).
- ◆ Most verbs simply add s, ed and ing to indicate tenses.
- When a single-syllable verb ends with a consonant preceded by a short vowel you double the final consonant when adding ed or ing.
- If a word ends in **e**, avoid the double **e** by dropping one as necessary.
- If a word ends in a consonant plus y, change y to i before adding es or ed, but to avoid creating a double i, keep the y in place for the adding of ing.
- If a word ends in a hissing or buzzing sound, add an e before the s. This makes it sayable, and helpfully creates an extra syllable.

Objective 8

To spell irregular tense changes, e.g. *go/went, can/could*

Whole-class approaches

- Establish conventional tense endings, e.g. ed. Brainstorm or collect up irregular tense endings and sort them into like groups, e.g. ow ew; ing ang; ind ound; ell old.
- Reinforce the past/present concept by using adverbials (*Last year ... Long ago ... Today ... Now*).
- Create poems and texts in Shared Writing that draw on tense transformations, e.g. Then/Now – Once we ate food that was mushy and gooey. Now we eat burgers and chips and chop suey.

Group tasks

- Make small books entitled A History of Me. Left-hand pages record past experiences. Right-hand pages record present experiences. Use writing frames to help less confident children use words on the list.
- Play card sorts, matches and games (e.g. Rummy) using pairs from the list below. Cut cards into onsets and rimes to play word dominoes to make it more challenging.

blow	blow	think	thought	oot	ata
	blew	think	thought	eat	ate
grow	grew	fight	fought	can	could
throw	threw	buy	bought	go	went
know	knew	take	took	is	was
sing	sang	shake	shook	are	were
ring	rang	wear	wore	have	had
drink	drank	tear	tore	does	did
begin	began	tell	told	get	got
feed	fed	sell	sold	hear	heard
meet	met	rise	rose	make	made
creep	crept	write	wrote	sit	sat
keep	kept	ride	rode	shoot	shot
sleep	slept	drive	drove	teach	taught
sweep	swept	speak	spoke	catch	caught
weep	wept	break	broke	bite	bit
find	found	give	gave	hide	hid
wind	wound	see	saw	send	sent
swim	swam	dig	dug	spend	spent
run	ran	slide	slid	bend	bent

Notes

 These irregular plural forms are survivals from Old English in which change of medial vowel was widely used to indicate change of tense. They are called 'strong' verbs in some textbooks.

Objective 9 (1 of 2)

To recognise and spell the suffixes **al**, **ary**, **ic**

Whole-class approaches

- In Shared Reading and Writing identify words with these suffixes (use the term *suffix*) and, over a period of weeks, build lists of these words.
- Investigation what is the general meaning of the suffixes and what spelling patterns do they follow?

Group tasks

- Investigation using dictionaries, including rhyming and crossword dictionaries, collect words to add to the class collections of words with one or other of these suffixes.
- Investigation identify the root words behind some words with these suffixes.

al		ary		ic	
medical personal seasonal exceptional occasional national sensational additional	traditional capital vocal	stationary dictionary revolutionary missionary necessary anniversary library	February salary	historic supersonic specific horrific metallic angelic epidemic rhythmic	organic atomic traffic

- al, ary and ic are vowel suffixes. Root words drop a final e or change y to i before taking the suffix.
- al often follows on and ic.
- **ary** in some cases the root is not always obvious, e.g. *temporary* = *tempor(al)* + **ary**. Unstressed, it is often confused with **ery**. One approach is to seek out base words ending in **e** to indicate **ery**, e.g. *stationer* or *saddle*.
- Roots are often hard to detect in this group of words.

Objective 9 (2 of 2)

To recognise and spell the suffixes **ship**, **hood**, **ness**, **ment**

Whole-class approaches

- In Shared Reading and Writing identify words with these suffixes (use the term *suffix*) and, over a period of weeks, build lists of these words.
- Investigation what is the general meaning of the suffixes, e.g. what does ship mean in *ownership*, *authorship*, etc?

Group tasks

- Investigation using dictionaries, including rhyming and crossword dictionaries, collect words to add to the class collections of words with one or other of these suffixes.
- Investigation identify the root words behind some words with these suffixes.
- Investigation of similar suffixes, e.g. dom, like, ish, some, ance, ence, ism, ology, craft, ation.
- Investigation of multiple suffixes, e.g. worthlessness.

ship	hood	ness	ment
membership ownership partnership dictatorship workmanship championship craftsmanship apprenticeship fellowship	childhood falsehood priesthood neighbourhood fatherhood motherhood knighthood	fairness kindness tidiness loveliness silliness nastiness wickedness childishness willingness fitness worthlessness carelessness foolishness left-handedness absent-mindedness	enjoyment employment ornament document management environment government replacement ointment statement movement

- ship, hood, ness and ment are simply added unless a final y needs to be changed to i.
- Roots are often hard to detect in this group of words.
- The language is full of suffixes which suggest a state of being.

Objective 14

The ways in which nouns and adjectives. e.g. *fix, simple, solid, drama, dead* can be made into verbs by use of the suffixes **ate**, **ify**, etc.; investigate spelling patterns and generate rules to govern the patterns

Whole-class approaches

- Make a verb factory build lists of words over time by brainstorming or collecting from shared text, to show how nouns, adjectives and verbs can be formed from each other.
- Investigation collect and generalise about the way words attach suffixes to change their function. Establish patterns and rules.

Group tasks

- Play word-match games match verb card to its adjective or noun.
- Play Make a Verb game invent new verbs from nouns/adjectives, e.g. nice/nicify (not so far-fetched – think of pretty and prettify).
- Word sort put words into two piles: those that will have to undergo a change before adding a verb suffix and those that won't.
- Investigate exceptions when creating nouns, e.g. poor poverty; clear – clarity; curious – curiosity.

Into verbs (ate , en , ify , ise)		Into nouns (tion , ity , ness)		Useful base words for activities	
pollen	pollinate	educate	education	clear	fertile
note	notify	dictate	dictation	deaf	light
elastic	elasticate	create	creation	solid	straight
medicine	medicate	simple	simplicity	quantity	glory
apology	apologise	able	ability	category	good
standard	standardise	pure	purity	loose	like
length	lengthen	stupid	stupidity	dark	flat
deep	deepen	hard	hardness	appetite	horror
dead	deaden	happy	happiness	class	poor
pure	purify	mad	madness	less	mobile

- One of the functions of a suffix is to change a part of speech; in this case a noun or an adjective into a verb and a verb or adjective into a noun.
- The main suffixes are listed above; others are: efy (*liquefy*) and esce (*effervesce*).
- Most words just add the suffix.
- When the root word already has a suffix, or it ends in e or y, it has to be removed before the new suffix can be added. Watch out, however, for words ending in y if you are adding ness – the y changes to i. Fortunately, the i is clearly pronounced.

Objective 5

To investigate what happens to words ending in **f** when suffixes are added

Whole-class approaches

- Investigation collect up words ending in f and fe and their plurals. Generalise the spelling rules.
- Use 'show me' cards for fs and ves.
- In Shared Reading or oral storytelling, cover endings with Post-It notes and ask children to work out the correct endings. (A Visit to the Zoo would naturally include several of the target words.)
 Alternative: Teacher models story using the singular forms in column 1, then tells the story using plural forms. Children hold up correct cards for endings used.

Group tasks

- Play Kim's game (in pairs) with flashcards.
- Use Where's Wally? books by Martin Handford to make a game, or display identifying target words in the pictures.

F/ves		ff/s		Words ending in e	
calf elf half leaf loaf self scarf self shelf thief wolf	calves elves halves leaves loaves selves scarves selves shelves thieves wolves	cuff staff sniff puff stuff cliff surf bluff	cuffs staffs sniffs puffs stuffs cliffs surfs bluffs	knife life safe wife believe glove curve swerve	knives lives saves wives believes gloves curves swerves
				Unusual v	vords
				belief chief	beliefs chiefs

- Most words ending in **f** change to **ves** in the plural.
- Words ending in **ff** add **s**.
- Words ending in **fe** use **ves**.
- Sometimes a ves ending indicates a change of word class from noun to verb, e.g. *belief believes; grief grieves; proof proves*.

Objective 6

To spell words with the common endings: **ight**, etc.

Whole-class approach

Build lists of words with common endings. Investigate for patterns, e.g parts of speech. Identify spelling difficulties (e.g. phonological variety of **ough**) and model strategies for problem-solving (see *Notes* below).

Group tasks

- Use crossword/rhyming dictionaries to build lists of words with common endings.
- Using lists of words with a common ending look for patterns, e.g. part of speech, syllable counts, etc.
- Look for mnemonics or other tricks to fix the spelling of tricky words.

ight	tion	ious	ial	ough
light	reaction	infectious	partial	bough
fight	subtraction	previous	special	although
night	electrocution	obvious	official	through
right	promotion	tedious	racial	cough
bright	devotion	serious	artificial	rough
slight	composition	glorious	financial	tough
fright	ambition	curious	social	enough

- ight most words ending in the 'ight' sound use ight. A handful of words use the split digraph i-e (but they include common words like *white, kite*). A number of scientific terms end in ite, (e.g. *bauxite*) or yte (e.g. *byte*). ight words are generally nouns.
- tion words ending in tion are almost exclusively nouns. The tion ending is generally predictable from its sound. Exceptions can generally be sorted out: adjectives (chiefly to do with nationality) often end in ian (e.g. *Russian*); nouns of occupation often end in cian (e.g. optician) and there is a tiny handful of isolates (e.g. *ocean*). See Y5 T2 O8 for further detail and ideas to stretch able children.
- ious the ious ending is generally predictable from its sound, and there are relatively few exceptions (*hideous, beauteous, plenteous*). ious words are generally adjectives.
- ◆ ial the ial ending is almost entirely stable, and preceded by either t or c. There are relatively few exceptions. ial words are generally adjectives.
- ough an example of extreme variation. Best learnt by exception: bough, plough (and perhaps Slough, the town) are effectively the only occasions when the final 'ow' sound is made by ough rather than by ow. Through is an isolate the only case of an 'oo' sound. Though, dough, thought and thorough are also isolates. That leaves words like tough and enough, which are also isolates (other words use uff).

Objective 7

To recognise and spell the prefixes: **al**, etc.

Whole-class approaches

- Display lists of words (see table below), and teach the meanings of the prefixes, thus teasing out the meanings of the words.
- Display cards with prefixes and roots and ask children to join up and define words which use both.

Group task

♦ Ask groups to devise a 100-word story using the **a** words linked by meaning. Suitable titles include Sea-Saga, Battle or Summer Garden.

Extension activities

- Ask children to look for older poetry which may use words like *abloom*, *aglitter*.
- Skim through a dictionary, looking for new words to add to the lists below these must hold to the meaning of the prefix.

ad	af	al	а		
adjective adverb admire advance advise advent addition adjoin adjacent adjust	affix affable affection affect affluent afflict afflirm	almighty alone almost already always altogether also although	aloft aground afield aboard away astride	another abide aglitter abloom afloat around	asleep awake alive alert ablaze apart

- ad means 'towards' just add; af means 'tending towards' double the f;
 al means 'all' + base word drop one of the ls; a means 'in a state of'
 (words in the a list above have a sense of 'on' or 'in') just add.
- Teach words within words, e.g. **an** + other = another.

Objective 5 (1 of 2)

To explore the occurrence of certain letters within words, e.g. **v** and **k**; deduce some of the conventions for using them at the beginnings, middles and endings of words

Whole-class approach

 Brainstorm examples in three columns – beginning, middle, end. Review differences in sound.

Group task

Provide word cards using v and k and ask children to categorise by sound, then work out where it appears in a word most frequently, and what letters commonly precede or follow it.

Extension activity

Draw up a new grid for other letters. Interesting examples include: h, c, p, g, q, t, x, y.

v			k		
Beginning van vase value valley variety vegetable verb	Middle river novel saved wives caves diver favour	End none	Beginning kick kill keen keep kept kennel kettle	Middle broken shaken taken tickle pickle choking stoked	End back dock kick trick work pork tank
vein veal village visit visa visible	given hover prevent liver savage invent		kestrel kiss kit king kerb kitten	token crackle stricken chuckle wrinkle ankle	sink wink walk talk milk lurk

- ◆ **v** no words end in **v**, except colloquials, e.g. *gov, spiv*.
- k often preceded by I, r, n and c at the ends of words wok and yak are exceptional because the k is preceded by a vowel.

Objective 5 (2 of 2)

To explore the occurrence of certain letter strings, e.g. **wa** (e.g. *swat, water*), **wo** (e.g. *worship, won*) and **ss** (e.g. *goodness, hiss, missile*) within words; deduce some of the conventions for using them at the beginnings, middles and endings of words

Whole-class approach

 Brainstorm examples in three columns – beginning, middle, end. Review differences in sound.

Group task

 Provide word cards using the same letter string and ask children to categorise by sound, then work out where it appears in a word most frequently, and what letters commonly precede or follow it.

Extension activity

 Draw up a new grid for other letter combinations, e.g. oo, ch, sc, which change their sounds in different contexts.

wa		wo		SS	
Beginning was wasp wander war wag warn want wait wage wake wake wave wake wave wash watch wash watch wat water wallet	Middle swamp swallow dwarf swat swarm reward swan towards beware End none	Beginning woman wok women won't would wolf worry woof wound wonder work woble woke wool word word worm	Middle swollen sword awoke End two	Beginning none Middle session massive lesson possible missile discussion passion Russian procession possession	End guess process goodness likeness fuss discuss less possess helpless boss hiss miss kiss assess success pass

- wa often makes a long flat 'a' sound. Short a is uncommon. swa is a common string. No examples at the ends of words.
- wo vast majority of examples with wo at the beginning; two is the only example with wo ending. swo is about the only string which places it in the middle of words unless you count compound words such as waxworks or roadworthy.
- ss common at the end of words because of the ness and less suffixes, but note it changes to a 'sh' sound when you add an ion or ian ending, e.g. discuss/discussion. No words begin with ss.

Objective 6

To spell words with common letter strings but different pronunciations, e.g. tough, through, trough, plough; hour, journey, could, route, four

Whole-class approaches

- Make class lists of words that exhibit common letter strings but are pronounced differently. Make connections to words that follow the same pattern (e.g. *near* and *hear; bear* and *wear*).
- Identify overlaps (e.g. *clear* and *pier*) and discuss and generate strategies for avoiding confusion (e.g. 'I measured the height and weight of eight people'.)

Group tasks

- Use crossword dictionaries and other resources to create lists of words with common letter strings but different pronunciations. Try ough, ow, ai, ry, ie, gh.
- Investigation-identify patterns:
 - Which pronunciation is the most common?
 - Which pronunciation is least common?
 - Do pronunciations follow any patterns? (Try looking at position in word, letters preceding and letters following.)
- Identify mnemonics and other tricks to avoid potential confusions (e.g. tough and stuff).

ough	ear	ight	ou	au	ice
tough	bear	light	out	aunt	practice
rough	hear	might	shout	sausage	notice
enough	wear	right	hour	haunt	police
cough	learn	bright	pour	autumn	nice
trough	earn	sight	yours	aura	spice
plough	hearth	tight	would	Laura	twice
thought	dear	weight	mourn	sauce	mice
though	dreary	freight	four	pause	rice
thorough	weary	height	route	cause	dice
through	fear	fight	journey	because	apprentice
	gear	night	could	trauma	Alice

Notes

- Note that accent and dialect have an impact on how words are pronounced in a locality.
- ◆ A feature of our sound-spelling system is that the same letter string can often be used to code more than one phoneme. In some cases the number of words involved is so small that they can be learned almost as isolates, e.g. there are only five words that end in **eight**. The most common sound is shared by *eight, weight* and *freight*; the other two words are *height* and *sleight*. Even the groups which are more numerous are within reasonable limits. For example, the group showing the greatest variety in the table above is *tough, through, trough, plough* and *thought*. Investigation will show that the number of <u>common</u> words that follow those models is quite small:

tough – two cases (*tough, rough*); *through* – one case; *trough* – two cases (*trough, cough*); *plough* – two cases (*bough, plough*); *thought* – four cases (*bought, thought, nought, sought*).

Objective 7

Collect/classify words with common roots, e.g. advent, invent, prevent, press, pressure, depress, phone, telephone, microphone; investigate origins and meanings

Whole-class approaches

- Provide and explain a root, then brainstorm and explain examples of it in use.
- Provide a list of words using the same root, and ask children to deduce the meaning.
- In Shared Reading, identify words built around common roots.
- Create word webs showing words related to a common root.
- Invent new words by combining common roots and affixes.

Group tasks

- Use dictionaries and other word lists to create collections of words with common roots. (A rhyming dictionary will help to uncover words where the common root is at the end.)
- Use an etymological dictionary to create charts showing word links and origins.

Words derived from oth	ner languages	
from <i>dec</i> – ten	from <i>annus</i> – year	from <i>manus</i> – hand
decad	annual	manual
decimal	anniversary	manuscript
from <i>graphein</i> – write	from <i>aqua</i> – water	from <i>mort</i> – dead
graph	aquarium	mortgage
photograph	aqueduct	mortuary
from <i>mikros</i> – small	from <i>unus</i> – one	from <i>roi</i> – king
microscope	unit	royal
microlight	union	royalty
from <i>octo</i> – eight	from <i>insula</i> – island	from <i>presse</i> – press
octagon	insulation	express
octopus	peninsula	pressure
from <i>skopein</i> – to see	from <i>nun</i> – name	from <i>voix</i> – voice
telescope	noun	voice
microscope	announce	vocal
f rom <i>ge</i> – earth	from <i>specere</i> – to look	from <i>bloc</i> – block
geology	spectator	blockage
geography	spectrum	blockade
from <i>naus</i> – ship	from <i>dictare</i> – to say	from <i>copie</i> – plenty
nausea	dictator	copy
nautical	dictionary	photocopy

- Many roots are derived from other languages, Greek, Latin and French in particular. Investigation of these roots can make plain commonalities in spelling which phonology sometimes obscures (e.g. the link between *reign* and *sovereign*).
- See later objectives for further examples to stretch the able and interested.

Objective 8

To practise extending and compounding words through adding parts, e.g. **ful**, **ly**, **ive**, **tion**, **ic**, **ist**; revise and investigate links between meaning and spelling

Whole-class approaches

- In Shared Writing, experiment with word extension, evaluating the impact of alternatives, e.g. costly/expensive.
- Investigation identify base words from extended words, e.g. what is the base word behind *manic*?
- Build up words using multiple affixes, e.g. *thank* + *full* + *Iy* = *thankfully*.
- Find words which use more than one suffix, e.g. *correct correctly, corrective, correction*.

Group tasks

- Use word wheels base words on the front wheel and suffixes behind. Children have to match the right suffix to the base word.
- Create new words by combining base words and suffixes, e.g. computerist.
- Investigation infer rules from examining cases, e.g. why is it *hurtful* but not *beautyful*?

ful	ly	ive	tion	ic	ist
hopeful	quickly	explosive	correction	horrific	extremist
hurtful	secretively	corrosive	construction	photographic	machinist
wishful	thickly	expensive	production	terrific	violinist
beautiful	jokingly	relative	variation	allergic	artist
careful	strangely	narrative	resurrection	comic	balloonist
merciful	speedily	active	creation	energetic	instrumentalist
wonderful	normally	decorative	pollination	scientific	specialist
painful	wholly	furtive	examination	manic	novelist
thankful	curiously	massive	education	acidic	stockist

- ful, ly and tion are consonant suffixes. Generally, these consonant suffixes can be added without alteration to the base word, except for words ending in y which change to i. There are a few exceptions, e.g. *wholly*. Words ending in t drop the t before adding tion, e.g. *construction*. The underlying principle is to avoid an impossible glut of sounds in the mouth.
- ♦ ive, ic and ist are vowel suffixes. Before adding one of these vowel suffixes you must drop a final e or y.

Objective 9

To recognise and spell the suffixes: **ible**, **able**, **ive**, **tion**, **sion**

Whole-class approaches

- In Shared Reading and Writing, identify words with these suffixes and build class collections organised under common headings. See lists below.
- Investigation identify the root words. What changes have been made to these roots before adding the suffix? What generalisations can be made about rules, e.g. 'What happens if the root word ends in e? Or in y? Why touchable but not stopable?'
- Use 'show me' suffix cards for **able** and **ible** to be shown in response to a word.

Group task

 Investigation – find words that can take more than one of these suffixes, e.g. adorable/adoration; identifiable/identification; prevention/preventable.

ible	able	ive	tion	sion
horrible terrible responsible possible edible reversible invincible indestructible susceptible	miserable probable adorable respectable forgivable disposable agreeable enviable identifiable enjoyable valuable breakable reliable	forgive massive excessive aggressive decisive explosive exclusive exclusive expensive native inquisitive competitive motive relative active attractive captive deceptive	inflation vibration dictation temptation education expectation conservation creation variation pronunciation punctuation communication qualification navigation	decision division supervision explosion corrosion confusion transfusion television conclusion collision extension

- Final e deletion is common in the root word, e.g. reversible, valuable, creation.
- **able** endings are far more common than **ible** ones. A key to distinguishing between these endings is that dropping **able** leaves a generally recognisable word, e.g. *agreeable*; dropping **ible** usually leaves a stem, e.g. *legible*. If one can say 'I am able to...', then the word is usually **able**. **ible** usually follows words ending in s.
- tion words are far more common than sion, and are often preceded by an a.
- Many sion words are can be grouped together, e.g. inclusion/conclusion/ exclusion; infusion/transfusion/effusion/diffusion; illusion/delusion. They are often formed from verbs ending in d or de, e.g. decide, explode.

Year 4 Term 3

Objective 10

To distinguish the two forms: *its* (possessive, no apostrophe) and *it's* (contracted 'it is') and to use these accurately in own writing

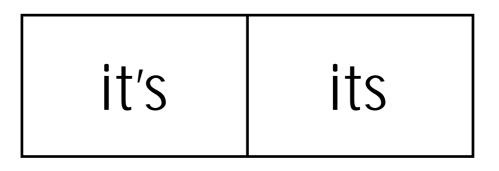

Whole-class approaches

- If possible, find a text with examples of both words. Discuss difference. Try covering examples with Post-It notes and ask children to work out the correct version.
- Work out ways of distinguishing the two, e.g. If you can substitute *it is*, then the correct form is *it's*. Another way might be to think of the apostrophe in *it's* as the top of the missing letter *i*.
- Use 'show me' cards containing *its* and *it's*. You provide sentences and they hold up the correct card. Alternatively, use individual whiteboards, and ask children to write *its* in large handwriting. They can write in or rub out the apostrophe as appropriate. Sample sentences:

Whose coat is this? _____ mine! _____ a lovely day today. The elephant raised _____ trunk. Hurry up, _____ going to rain! The monster opened _____ mouth and roared. The book had lost _____ last page.

Group tasks

- Make *it's/its* into 'target words'. Make a reminder card with the rules for remembering which is which.
- Create a flow chart to test for which form to use.
- Cloze. Insert correct version in a text where they are plentiful, but deleted.
- Play pairs or snap with four sets of cards: *it is, it's, its, belonging to it.*

- It's = it is;
- its = belonging to it.

Year 4 Term 3

Objective 11

To investigate compound words and recognise that they can aid spelling even where pronunciation obscures it, e.g. *handbag*, *cupboard*

Whole-class approaches

- Make class collections of compound words by brainstorming or by collecting over a period of time from shared texts, for example. Identify the original words and any letters that are obscured by pronunciation.
- Shuffle cards to create new compound words.

Group tasks

- Match words to form standard compounds or to create new ones.
- Develop definitions which show the difference in meaning between compound words and the word elements used on their own, e.g. what is the difference between a grandmother and a grand mother?
- Investigation develop possible explanations for the change in pronunciation in some compound words, and what their origins might be, e.g. *cupboard – board* used to mean 'table'.
- Create highly visual A4 wall posters to 'advertise' the original components of compound words.

Easy compounds			Tricky and curious compounds		
windmill bedroom football tablecloth	weekend outside blackbird grasshopper	everyone anybody database playground	cloakroom handkerchief grandmother goodnight	popcorn	blackboard handbag

A selection of base words						
in	to	house	wards	hold	grand	
out	good	cloak	night	land	lord	
box	school	dust	god	bin	child	
farm	home	any	yard	work	one	
back	bath	no	room	thing	ground	
star	moon	shine	burst	pot	time	
post	man	light	tea	wife	son	
bed	some	play	stead	where	side	

- A compound word is a word made up from two or more other words. A characteristic of compounds is that they are almost always pronounced with the stress on the first word element. Solid compounds are written as a single word, hyphenated compounds are linked with a hyphen, e.g. *leg-iron*. Over time, the meaning of compound words has drifted, adding an historical interest, e.g. *cloakroom* has survived the arrival of coats instead of cloaks. The days of the week and words like *blackguard* often yield to historical research. *Biscuit* means 'twice-baked' in French. Thus, some apparently unreasonable spellings can be explained.
- Most compounds work by simply adding the two base words together without modification. If the first word ends in y, that will often change to i, e.g. handicraft.

Year 4 Term 3

Objective 12

To understand how diminutives are formed, e.g. suffixes: **ette**; prefixes: **mini**; adjectives, e.g. *little*; nouns, e.g. *sapling*; and nicknames, e.g. *Jonesy*

Whole-class approaches

- In shared text time, identify adjectives which indicate smallness.
- Brainstorm using one key word from each list to start children off. Identify the affix that indicates smallness, and also the root, e.g. *cigar* + *ette*.
- Discuss why diminutives are used, e.g. to express fondness Jonesy (animals are often given names ending in y); to mock, as in suffragette.
- Ask children to think about nicknames, and abbreviated forms (*William Bill*).
- Brainstorm adjectives that diminish. See the adjectives list below.

Group tasks

- Look up origins of affixes in an etymological dictionary and report back. See Notes. Make up your own diminutives and define them. What, for instance, might a lessonette be? If we have books and Big Books, what about booklings? What would you call a tiny crumb? Half a speck of dust? A baby fly?
- Play Jigsaw game create diminutives by fitting together roots and affixes.
- Research terms of endearment and baby language (see curiosities list below).

mini	ette	ling	micro	Adjectives	Curiosities
minicomputer miniature miniskirt miniscule minibus mini-beasts minimum Mini car	brunette cigarette majorette kitchenette	duckling dumpling gosling sapling darling weakling	microscope microfilm microchip microphone	small little tiny less reduced- low- -kin -nano	Itsy-bitsy teeny-weenie junior baby puss-cat diddums pocket-sized titch

- **ette** is from French, and can have the secondary connotation of being a female version, e.g. *usher, usherette*.
- mini comes from the Latin *minimus*, meaning 'small'.
- micro Latin, meaning 'tiny'.
- Be careful with **ling**. It's from old English and can mean 'having a certain quality' as in *weakling*, as well as meaning 'little'.

Objective 4

To examine the properties of words ending in vowels other than the letter **e**

Year 5 Objectives

Whole-class approaches

- Using food words from the lists below, brainstorm 'Foods from abroad' and list them in three columns (by endings: a, i, o) with the plural morpheme s written in a different colour. Alternatively, distribute food cards and invite children to place their cards under country names written on board. Transfer to world map later. Use the same strategy for 'Unusual animals of the world' or 'Musical words we know'.
- Generalise about adding endings.

Group tasks

- Make small/concertina booklets entitled: The A–Z of Italian Food, A Global Glossary of Gorgeous Grub, Around the World in Eighty Animals/Words, An Encyclopaedia of Exciting Eating, Plural Pianos and Singular Sonatas (musical terms). Use writing frames to encourage use of singular/plural forms.
- Write alliterative list poems using plural forms, e.g. Pizzas are perfect for peckish children/Samosas are scrummy for starving school kids.
- Use singular/plural flashcards for the Pelmanism game. Differentiate by including regular/irregular forms in the pack.

LIST 1					
anacondas areas armadillos bananas banjos bhajis bongos cameras casinos cellos chapattis concertos	corgis cuckoos dahlias dingos discos ecus emus fiestas galas geckos gnus gurus	haikus igloos jumbos kangaroos kiwis kimonos magnolias matzos oratorios paellas pagodas pastas	patios pianos piccolos piazzas pizzas pumas radios risottos rotas sambas samosas saunas	siestas skis sofas sombreros solos sonatas tattoos tarantulas tombolas umbrellas violas visas	yoyos zulus zoos
LIST 2					
buffaloes cargoes	dominoes echoes	heroes haloes	torpedoes mangoes	vetoes flamingoes	volcanoes
LIST 3					
antennae macaroni	bacteria ravioli	criteria spaghetti	fungi tagliatelli	phenomena strata	

- Most nouns ending in o form their plural by adding s, especially musical terms, words recently introduced from other languages, abbreviations, and words ending in two vowels. There are some exceptions to this rule when es is added to form the plural (List 2).
- A few words keep the plural spelling of the original language (List 3). Some pasta terms are <u>already</u> plurals in Italian!
- Some of these words may be unknown to your class, but they have been included to serve a range of languages you may have in your classroom.

Objective 5 (1 of 2)

To investigate, collect and classify spelling patterns in pluralisation, construct rules for regular spellings, e.g. add **s** to most words; add **es** to most words ending in **s**, **sh**, **ch**; when **y** is preceded by a consonant, change to **ies**; when **y** is preceded by a vowel, add **s**

Whole-class approaches

- Create a list of singulars with their plurals, either by brainstorming, collecting over time or using the lists below. Ask children to group them according to the way they add or change their endings to accommodate the plural.
- Use 'show me' cards for s/es endings. Children show the correct ending in response to an oral word.
- Individual whiteboards children attempt to apply taught rules in response to a given word.
- Cloze passage featuring deleted plurals.

Group tasks

- Investigation after establishing the basic 'Add s' rule, children could conduct and open investigation into other ways of forming plurals.
- ◆ Do word sums, e.g. *cargo* + **s** = ____; *babies* **s** = ____
- Play a card game or bingo featuring cards with pluralisation rules written in the squares, and in which cards are drawn featuring different words to be pluralised.
- Design posters or radio commercials to advertise a spelling rule.

Extension activities

- Investigate:
 - words that have no singular (e.g. *trousers, scissors*);
 - words that are the same in the singular and plural (e.g. sheep, deer);
 - plurals with endings other than **s** (e.g. *mice, men*);
 - plurals of words ending in **o** (e.g. *potatoes, tomatoes*).

Typical w	ords	Hissing a words	nd buzzing	Consonan	t + y words
dog	dogs	hiss	hisses	city	cities
house	houses	bus	buses	try	tries
meal	meals	church	churches	lorry	lorries
balloon	balloons	dish	dishes	worry	worries
sister	sisters	lunch	lunches	cry	cries
school	schools	fox	foxes	baby	babies
day	days	box	boxes	party	parties
word	words	watch	watches	puppies	puppies
boy	boys	fish	fishes	lolly	lollies
girl	girls	patch	patches	jelly	jellies

- Most nouns add **s** in the plural.
- Nouns ending in hissing, buzzing or shushing sounds (s/x/ch/sh) add es in the plural. This adds a syllable and makes it easier to say.
- Nouns ending in consonant + y change y to i and add es. Compare nouns ending in vowel + y which simply add s.
- Several nouns ending in o add es in the plural. These tend to be older words, e.g. *potatoes*. Newer words like *patio* and *radio* add s in the plural.

Objective 5 (2 of 2)

To investigate, collect and classify spelling patterns in pluralisation, e.g. change **f** to **ves**

Whole-class approaches

- Create a list of singulars with their plurals, either by brainstorming, collecting over time or by using the lists below. Invite children to group them according to the way they add and change their endings to accommodate the plural.
- Use 'show me' cards for s/es endings. Children show the correct ending in response to an oral word.
- Individual whiteboards: children attempt to apply taught rules in response to a given word.
- Cloze passage featuring deleted plurals.

Group tasks

- Investigation after establishing the basic 'Add s' rule, children could conduct an open investigation into other ways of forming plurals.
- Word sums, e.g. self + s =____
- Play card game or bingo featuring cards with pluralisation rules written in the squares, and in which cards are drawn featuring different words to be pluralised.
- Design posters or radio commercials to advertise a spelling rule.

Extension activities

- words that have no singular (e.g. trousers, scissors);
- words that are the same in the singular and plural (e.g. *sheep, deer*);
- plurals with endings other than s (e.g. mice, men);
- ◆ plurals of words ending in **o** (e.g. *potatoes, tomatoes*).

f and fe endings		Irregular plurals		
calf self thief half wolf knife loaf life scarf	calves selves thieves halves wolves knives loaves lives scarves	antenna goose man woman mouse louse die tooth child	antennae geese men women mice lice dice teeth children	
wife	wives	formula	formulae	

- Many nouns ending in f drop the f and add ves in the plural. There are exceptions. ff words just add s, for example.
- ◆ A number of nouns have unusual plurals. Some change the medial vowel (goose/geese); some have retained the plural form of the original language (a singular, ae plural is Latin).
- Several nouns ending in o add es in the plural. These tend to be older words, e.g. potatoes. Newer words like patio and radio add s in the plural.

Objective 6

To collect and investigate the meanings and spellings of words using the following prefixes: **auto**, **bi**, **trans**, **tele**, **circum**

Whole-class approaches

- Write up the prefixes, divide the class into five groups, and ask them to write down as many words as they can in two minutes, for their prefix. Ask them to work out the meaning of the prefix, and teach if unknown.
- Play Speedy Dictionaries pairs race against a 30-second deadline to locate word and origin of a prefix in the dictionary.

Group tasks

- Play Kim's game collecting words with like prefixes.
- Play sorting games for language of origin, for same prefix, scientific words, words linked to movement, etc.
- Search dictionary for new phrases like 'automatic focus, automatic door'.
- Search Science, Maths and Geography textbooks for examples of words in context.
- Do Yellow Pages wordsearch for companies which use prefixed words as company name, e.g. AutoGlaze. Try travel and transport companies, etc.
- Make links with other languages: words for motorways = autoroute (French); Autobahn (German); autopista (Spanish); autoput (Serbo-Croat).

auto	circum	bi	tele	trans
autograph autopsy automaton autobiography automobile automatic	circumference circumnavigate circumstance circumvent circulate circus circle circular	biceps bisect bicycle bifocals bilingual biplane	telephone telegraph telescope television telepathy telephoto Tele Tubbies	transmit transfer transport transparent translate transatlantic transplant

- auto means 'self'; circum means 'round', 'about'; bi means 'two' or 'twice'; tele means 'distant'; trans means 'across!
- Use multicultural opportunities, drawing on other languages in the classroom.

Objective 8

To identify word roots, derivations, and spelling patterns, e.g. *sign, signature, signal; bomb, bombastic, bombard; remit, permit, permission,* in order to extend vocabulary and provide support for spelling

Whole-class approaches

- Using the chart below, provide some examples of word roots and derivations on the board or flipchart. Provide further examples of word roots and ask children to think of words that are derivations. Record these next to the root words. Talk about the fact that many words in the English language are derived from other words and this can provide a clue to their spellings.
- Explain that many word roots and derivations are drawn from Latin and Greek, and provide examples of these. In group work, children can investigate the reasons why these two languages have had such an influence on the English language.

Group tasks

- Provide each group with cards of root and associated words. Ask the children to sort the words into their relevant families or groups.
- Working in pairs, children decide/use a dictionary to check which words in the group are nouns, verbs, adjectives, or adverbs.
- Children can develop their own card games, e.g. Beat Your Neighbour for groups of four. Twenty word roots and forty derivations (two per word root) are put onto cards. Each child starts with five word roots. The forty cards of derivations are placed face-down in the middle of the table and children take it in turns to select a word. Unwanted words are placed at the bottom of the pile. The first child to collect five sets of word roots and their derivations and be able to spell all the words in the sets (from memory) wins the game.

act	actor	action	activity	react	reaction
child	children	childhood	childlike	childish	childless
electric	electrical	electricity	electrician	electronic	electrocute
take	mistake	mistaken	overtaken	overtaking	partaking
assist	assistant	assistance	balance	imbalance	unbalanced
bore	boring	boredom	call	recall	calling
claim	reclaim	reclaimable	cover	discover	discovery
examine	examination	examiner	give	given	forgiveness
govern	governor	government	hand	handler	handicraft
hero	heroic	heroism	joy	joyful	enjoyment
light	lightning	delighted	machine	machinery	machinist
medic	medical	medication	obey	disobey	disobedient
operate	cooperate	cooperation	pack	packet	package
pain	painkiller	painstaking	pass	passage	passenger
prison	imprisoned	imprisonment	press	impress	depression
prove	approval	disapprove	public	publication	publicity
relate	relative	relation	shake	shakily	shaken

Note

 Encourage use of etymological dictionaries and thesauruses to support children in finding/spelling derivations of words and their origins.

Objective 4 (1 of 3)

To explore spelling patterns of consonants and formulate rules:

• II in *full* becomes I when used as a suffix

Whole-class approach

• Word search in text, or brainstorm. Work out the rule.

Group task

• Do a wordsearch.

Extension activity

 Investigate if there is a similar effect when all and till are affixed to other words.

Typical words						
hope	hopeful	fear	fearful	wake	wakeful	
thank	thankful	harm	harmful	scorn	scornful	
play	playful	shame	shameful	doubt	doubtful	
boast	boastful	faith	faithful	colour	colourful	
care	careful	hand	handful	mouth	mouthful	

y words

y words					
beauty	beautiful	plenty	plentiful	fancy	fanciful
pity	pitiful	mercy	merciful	bounty	bountiful

- Drop the I when adding full.
- Change y to i when adding full.
- Distinguish between 'a hand full of ' and 'a handful of '. The first refers to the hand, the second refers to the quantity.
- all and till also drop the second I when they are affixed to other words, e.g. *always, until.*

Objective 4 (2 of 3)

To explore spelling patterns of consonants and formulate rules:

 words ending with a single consonant preceded by a short vowel double the consonant before adding ing

Whole-class approaches

- Investigation use the first group of words to draw a contrast between words that double and those that do not. The clue is in the sound of the preceding vowel.
- Provide base words and ask children in pairs to spell and show the extended word on a whiteboard.

Group tasks

- Provide a mixture of base words that were not used in the whole-class activities. Have the children work in pairs to provide the correct spellings when adding ing, er, ed, est where appropriate.
- Provide children with newspaper or magazine articles. Ask them to find, highlight and record words that have consonants doubled where suffixes have been added.

Contrasting sets						
hop	hopping	hopped	hope	hoping	hoped	
dine	diner	dinner	write	writer	written	
hid	hide	hidden	ride	rider	ridden	
care	caring	careful	carry	carrying	carried	

Doubled	letters				
beg	begged	beggar	big	bigger	biggest
dig	digging	digger	drag	dragging	dragged
drop	dropping	dropped	mop	mopping	mopped
hum	humming	hummed	hug	hugging	hugged
run	runner	running	stop	stopper	stopped
sun	sunny	sunnier	fit	fitter	fittest
win	winning	winner	wet	wetter	wettest

Undoubled letters						
beep	beeping	beeped	blast	blasting	blasted	
burn	burner	burning	count	counter	counted	
disgust	disgusted	disgusting	dream	dreamer	dreaming	
feel	feeling	feeler	help	helped	helper	
train	trainer	trained	trick	tricky	tricked	

- Ensure that children understand the difference between short- and longvowel sounds.
- When you are providing examples of words with short- and long-vowel sounds, emphasise or exaggerate the sounding out and have the children join in.
- Short (rap) vowel = double consonant.
- Long vowel = single consonant.

Objective 4 (3 of 3)

To explore spelling patterns of consonants and formulate rules:

 c is usually soft when followed by i, e.g. circus, accident

Whole-class approaches

By investigation – use lists of words for ca, ce, ci, co and cu, and ask children to generalise about the way the words sound. Ask them to read aloud – to hear the difference and find the pattern.

Alternatively, ask the children to brainstorm and decide what rules apply for words with the ca, ce, ci, co and cu pattern, e.g. call, calendar, camera, cardigan, carnival, recap celery, centimetre, centre, cereal, centipede, descend circle, cinema, cinnamon, decide coat, cobweb, coffin, cold, column, cow, disco cupboard, curtain, custard, customer, cut, discuss

Have them decide which other **c** group belongs with the **ci** group, i.e. **ce**.

Group tasks

- Independent investigation give the children a group of cards containing a mix of c words and ask them to sort the words and work out the rule for themselves about the vowel following c.
- Have the children find as many words as they can from the different c + vowel groups.

Extension activity

 Ask the children to find and record examples of cy words (which also have the soft c sound).

ci					
cinema	cinnamon	circle	circuit	circular	circulation
circumference	circumstance	circus	incisor	cistern	citizen
city	accident	civil	decide	decision	decisive
decimal	incident	disciple	discipline	recite	recital
се					
ceiling	celebrate	celebrity	celery	cell	cellar
cellophane	certain	cement	cemetery	census	cent
centenary	centigrade	centipede	recent	centre	century
cereal	ceremony	incense	certificate	deceased	deceit
December	decent	descend	discern	except	receive
су					
cyanide	bicycle	cyclist	cyclone	cylinder	fancy
cynic	cynical	cypress	cyst	mercy	Iacy

- ◆ ci, ce and cy usually soften the c.
- ◆ Exception for **ce** Celt, Celtic pronounced as Kelt, Keltic.

Objective 5

To investigate words that have common letter strings but different pronunciations, e.g. rough, cough, bough; boot, foot

Whole-class approaches

- Write word groups on the board and ask the children to sort them by sound.
- Postboxes post words into the correct box.
- Investigation what effect do preceding and following letters have on the pronunciation of the string?

Group tasks

- Do word sorts.
- Play card games, collecting up similar sounds.
- Word ladders children build a word around the string by changing or adding only <u>one</u> letter each turn, e.g. cough – rough – bough – bought – brought.

ight	ear	00	ough	ie	our
right fight light eight weight height freight tight	pear bear rear beard search fear wear year tear dear near learn yearn gear ear hear hear hear hear heart hearth heart	book boot cook food foot good hood hook hoot look loot mood nook pool rook root soot took	bough cough dough enough plough though bought brought drought sought thought wrought	lie pie tie fried lied tried niece piece field shield grieve thieves	armour colour favour honour neighbour rumour pour your hour flour

- This objective extends the earlier teaching that, just as a phoneme can be spelled in more than one way, the same spelling may represent more than one phoneme.
- Use the lists to demonstrate how:
 - pronunciation often depends on preceding and following sounds, e.g. an e before igh usually gives it a long 'ay' sound;
 - (ie list) i interacts with other letters as part of a phoneme (e.g. *thief*) when its sound is unpredictable, and as a modified y (e.g. *fried*) when its sound is always i;
 - Usage can also depend on dialect (the **our** list is useful here).

Objective 6

To distinguish between homophones, i.e. words with common pronunciations but different spellings, e.g. *eight, ate; grate, great; rain, rein, reign*

Whole-class approaches

- Teach words and meaning directly, and display.
- Place Post-It notes over homophones in shared texts and ask children to work out which one fits.
- Make individual flashcards (e.g. there/their) for children and ask them to hold up the correct spelling in response to a sentence in which the meaning is clear.
- ◆ Riddles 'What opens locks and is always found beside water?'

Group tasks

- Play Kim's game place cards face-down and hunt out the pairs. You can claim a pair if you can prove you know the correct meaning using a dictionary.
- Play Sound Snap with a limited number of priority words.
- Invent mnemonics and ways of working out the correct choice.
- Play Beat the Spellchecker write a 100-word story or report that beats the spellchecker. Team with the most cheats wins.

Extension activities

- Look for homonyms (same spelling, different meanings, e.g. *bear*).
- Research history of words to explain the origin of some homophones spellings.

rode ro	ain reign	you	yew	ewe
	bad rowed	too	two	to
	uy bye	their	they're	there
	bo sow	cent	scent	sent

cell	sell	made	maid	cereal	serial
dear	deer	main	mane	key	quay
beach	beech	meet	meat	scene	seen
blue	blew	pane	pain	vain	vein
grate	great	peace	piece	waist	waste
hair	hare	plane	plain	fate	fete
here	hear	sum	some	flour	flower
herd	heard	read	red	bean	been
him	hymn	right	write	week	weak
hour	our	break	brake	leak	leek
knight	night	steel	steal	aloud	allowed
knot	not	stair	stare	board	bored
know	no	tail	tale	sun	son

- Many homophone choices are best taught as a grammatical issue, e.g. there/their.
- Note that analogy with family groups can be helpful, e.g. ear, hear, heard; here, where, there.

Objective 7

The correct use and spelling of possessive pronouns, linked to work on grammar, e.g. *their, theirs; your, yours; my, mine*

Whole-class approaches

- Write on the board an incomplete list of possessive pronouns. Ask children to complete the pattern, then discuss what the pronouns have in common, e.g. they tell us who things belong to; they don't use people's names; they represent people's names. Identify the function of the words. Explain the name 'pronoun'.
- In Shared Reading and Writing, invite children to substitute pronouns for nouns, using pronoun 'show me' fans.
- Search for words within words, e.g. yours, mine.

Group tasks

- Investigate the pattern by which the words in column 2 are followed by nouns, while those in column 3 stand alone.
- Make Who Am I?, Who Are They? and Who Are We? guessing-game cards, using the possessive pronouns, e.g. 'Our noses are long, our skin is grey, our memories are long. Who are we? Elephants:
- Pronoun hunt where in sentences do pronouns tend to arise? How do they work in relation to the named person?
- Create lines or poems based on possessive pronouns, e.g. 'your loss, my lucky find'.

Extension activities

- Research older forms of pronouns, e.g. *thee/thine*.
- Research pronouns in other languages, e.g. ta/ton; mein/meine.

I	my	mine	
you	your	yours	
he	his	his	
she	her	hers	
it	its	its	
we	our	ours	
they	their	theirs	

Note

• It's = it is; its = belonging to it.

Objective 8

To recognise and spell the suffix: **cian**, etc.

Whole-class approaches

- Make class collections of 'shun' words. Categorise them according to word ending (see lists below).
- Develop and draw out patterns leading to general rules determining spelling pattern (see *Notes* below).
- Give a base word and ask children to write the correct 'shun' suffix, e.g. educate, magic. Alternatively, use a 'shun' fan for children to flash in response.

Group tasks

- Suffix wheels one child turns the wheel to move a suffix, into a window on the card, partner has to think of a 'shun' word with that suffix (checked in dictionary).
- Word building roots and suffixes for 'shun' words on separate cards children have to match roots and suffixes to complete words correctly.
- Sorting activities sort cards into piles, e.g. tion words into five piles depending on the preceding vowel, e.g. ation, etc. Generalise and explain. (See Notes.)

cian	sion	ssion	tion	other
physician optician magician politician electrician	extension collision confusion exclusion transfusion infusion explosion corrosion	profession session percussion discussion oppression passion mission possession	fiction fraction direction attention proportion reduction mansion diction	Venetian Ocean Asian Russian
ation	etion	ition	otion	ution
nation station foundation education translation demonstration	completion deletion	repetition competition opposition position petition intuition	motion lotion devotion promotion emotion	distribution pollution revolution institution constitution contribution

- **cian** where words end in **c**; common in occupations.
- tion the most common ending.
- ◆ sion where the base word ends in d/de or s/se (e.g. explode, confuse).
- **ssion** clear soft 'sh' sound.
- ation long a is always followed by tion.
- otion/ution/etion the base word usually contains the vowel, clearly pronounced.
- ution words are usually longer than three syllables; usion tends to be shorter.

Objective 4

To spell unstressed vowels in polysyllabic words, e.g. *company, portable, poisonous, interest, description, carpet, sector, freedom, extra*, etc.

Whole-class approaches

- Select a group of words that contain unstressed vowels and write them on the board or flip chart. Ask the children to work out what the words have in common and why people might have difficulty in spelling these words.
- Ask for suggestions as to how the spellings of such words could be memorised, e.g. exaggerated pronunciation where words are broken down into syllables – *diff-er-ence*; thinking of the root word, e.g. *differ* + the suffix *ence* use of mnemonics, e.g. '*pet* on the car*pet*', '*Al* is in hospit*al*'.

Group tasks

- Children work in pairs to develop further ideas/mnemonics for supporting the spelling of words provided in the chart below.
- Ask the children to decide on categories for grouping the words, e.g. *ary*, *ery*, *ory*, *erence*.
- Children select a number of words from the categories which have prefixes and find the root word. They then repeat this activity with words that have suffixes and finally with words that have both prefixes and suffixes.

widening interest disinterest interested jewellery volunt library literacy literate illiterate literature lottery	library	al description gory catholic erence offering onary difference anatory extra ery smuggler rally generous ning interest ry literacy	boundary poisonous deafening different factory formal Wednesday disinterest literate	interested illiterate	literature	carpet stationery comprom definitely easily primary general separate voluntary lottery prepare
--	---------	---	--	--------------------------	------------	--

- Draw children's attention to the high number of words that contain the er and en patterns.
- Children can be supported in remembering the different spellings for stationary and stationery by using the mnemonic 'buy stationery from the stationer'.
- Helpful tactics:
 - refer to root;
 - build the word up to detect prefixes and suffixes, and syllables;
 - ◆ refer to related words, e.g. *definite finite;*
 - ◆ say words as they might sound, e.g. *Wed_nes_day*.

Objective 5 (1 of 3)

To investigate and learn spelling rules:

- words ending in modifying e drop e when adding ing, e.g. taking
- words ending in modifying e keep e when adding a suffix beginning with a consonant, e.g. hopeful, lovely

Whole-class approaches

Generate a list of base words ending in a modifying e (i.e. the e is part of a vowel digraph which make a long-vowel sound on the preceding vowel), and their suffixes. Compare the effect of adding suffixes that begin with a vowel and others that begin with a consonant.

Group task

 Mix and match a handful of base words with different suffixes. See below.

live	living	lived	lively	lifeless
hope	hoping	hoped	hopeful	hopeless
care	caring	cared	careful	careless
shame	shaming	shamed	shameful	shameless
tune	tuning	tuned	tuneful	tuneless

Useful bas	seful base words Vowel suffixes		Consonant suffixes	
sure rehearse nice save	love age use pave	ing ed ish er	est ism able al	ful ment less ness ly

- Drop the **e** to add vowel suffixes.
- Retain the **e** to add consonant suffixes.

Objective 5 (2 of 3)

To investigate and learn spelling rules:

 words ending in y preceded by a consonant change y to ie when adding a suffix, e.g. *flies, tried* – except for the suffixes ly or ing, e.g. *shyly, flying*

Whole-class approaches

- Investigation sort words and work out the rule.
- Fill out the lines of a grid (like the first batch of words in the one below), halting at the modified letters, to generalise.
- Demonstrate the adding of suffixes, then give children a key word (e.g. funny) to work on their whiteboards.

Group tasks

- Children work in pairs to fill in or complete a prepared grid.
- Investigation sorting words and generalising.
- Finding the obvious and less obvious suffixes which go on verbs (see second batch below).

Extension activities

- investigate words ending in vowel + y;
- investigate whether the final letter changes in any other word when adding a suffix (alphabetically, e.g. stamin<u>a</u>, sca<u>b</u>, pani<u>c</u>, car<u>d</u>, concret<u>e</u>, sti<u>ff</u>, flag, fis<u>h</u>, etc.)

Adjectives	S			
happy	happiness	happier	happiest	happily
pretty	prettiness	prettier	prettiest	prettily
lazy	laziness	lazier	laziest	lazily
hungry	hungriness	hungrier	hungriest	hungrily
windy	windiness	windier	windiest	windily
ready	readiness	readier	readiest	readily
heavy	heaviness	heavier	heaviest	heavily
empty	emptiness	emptier	emptiest	emptily

Verbs					
supply carry marry try ally vary reply	supplying carrying marrying trying allying varying replying	supplied carried married tried allied varied replied	supplicant carrier marriage trial alliance variety replicate	supplier carriage variation replication	variable replica

- y changes to i when you add the suffixes ness, er, est, ed, ly.
- An important exception is adding ing it would be very odd to have a word containing a double i, and difficult to say.
- No other final letter changes when adding a suffix (though letters can double).

Objective 5 (3 of 3)

To investigate and learn spelling rules:

• i before e except after c when the sound is 'ee', e.g. *receive*. Note and learn exceptions

Whole-class approaches

- Generate a list of words in which i and e are adjacent and invite children to search for patterns. Remind children that both digraphs can make different sounds, some of which overlap.
- Use 'show me' cards featuring ei and ie which children can show in response to a given oral word.

Group tasks

- Investigation collect words and find patterns to prime the whole-class session.
- Create a poster to advertise guidelines for choosing the correct digraph.
- Investigation find as many ways of sounding ie as possible, with examples. Likewise with a. Which are common and which are unique to each digraph?

ie			cei	ei (long a)	ei (other)
lie die pie tie thief belief grief brief piece review fiery	chief handkerchief pierce field priest fierce mischief quiet friend medieval obedient	shield shriek yield niece relief pier patient view ancient glacier science	ceiling receive receipt deceit perceive conceit	vein rein veign veil weigh freight eight neighbour sovereign foreign	weird protein their either neither height heir

- Most words use ie.
- ie is the only word-ending.
- ei is the only word-beginning.
- c is usually followed by ei (*science, glacier* and *ancient* are troublesome exceptions).
- The long **a** sound generally indicates **ei**. Note that the long **a** pronunciation has drifted a little over time, and is also influenced by accent.
- Other common ei words (see chart, final column) are best memorised by exception.

Objective 6

To transform words, e.g. changing tenses: ed, ing; negation: un, im, il; making comparatives: er, est, ish; changing verbs to nouns, e.g. ion, ism, ology; nouns to verbs: ise, ify, en

Whole-class approaches

- Use a number of base words to generate examples of how a word may change its meaning and spelling when it is transformed by adding suffixes and prefixes. Ask children to identify 'when' and 'why' words:
 - use particular endings, e.g. ise to create a verb, il to negate a word beginning with l;
 - tend to modify their spelling, e.g. words ending in **e** and **y**.

Group tasks

- Race to collect the base words with most different forms.
- Each group specialises in one aspect, e.g. words ending in y; words changing into nouns to report back to the plenary.

Extension activity

 Investigate how the same job might be done by adding a word, e.g. er by more, est by most).

Base words			Negation	Verb to noun	Noun to verb
love hate change class press child educate long possible reduce	arm care critic age fool medicine responsible kind decide compose	help small art magnet possible legal happy mobile television simple	un de dis anti il	tion ism ness ity ist ist im im	ise ify ate en

Tense	Comparatives
s/es	er
d/ed	est
ing	ish
en	like

Note

See activities for some earlier objectives in this booklet (Y3/T1/O10 – page 7, Y3/T2/O8 – page 9, Y4/T1/O7 – page 24, Y4/T1/O14 – page 28, Y4/T3/O8 – page 36).

SPELLING BANK

Year 5 Term 3

Objective 7

To recognise the spelling and meaning of the prefixes: **in**, **im**, **ir**, **il**, **pro**, **sus**

Whole-class approaches

- Teach words and meanings directly, and display.
- Present lists and investigate spelling patterns.
- Write lists of words, then cover up the prefixes choose which prefix will work.

Group task

• Collect more words using alphabetical list in the *Penguin Rhyming Dictionary*.

Extension activities

- Produce a set of insults for use in a drama activity in which children bandy insults in a row, choosing words from the in, ir and im lists, then compare them with insults which characters in Romeo and Juliet hurl at each other!
- Investigate the use of **un**, **dis**, **de** and **anti**.

in	im	ir	il	pro	sus
inactive indecent incapable inconvenient inattentive incredible inverted inaccurate	immature immobile impractical impossible improbable improper impatient impolite	irregular irrational irresponsible irresistible	illegal illiterate illegible	proactive project provide produce propose proceed propeller	suspect suspense suspicion suspend sustain

- in means 'not'.
- ir means 'not' add to the beginning of words beginning with r, thus producing double r. Note several exceptions, however, e.g. *unreasonable*.
- il means 'not' add to beginning of words beginning with I, thus producing double I. Note several exceptions, however, e.g. *dislike, unload.*
- im means 'not' add to the beginning of words beginning with m and p. Note several exceptions, however, e.g. unmade, displease.
- sus a version of sub meaning 'under', but the meaning has drifted from being 'under the spotlight' in *suspect* to being 'held up' in *suspend*.
- **pro** means 'ahead'.
- Note the double letters created when the prefix is added to words beginning with the same letter.
- Words containing the letter string conform to the rules even though they lack the root meaning, e.g. *illuminate, illustrate, irritate, irritate.*

Year 6 Term 1

Objective 5

To use word roots, prefixes and suffixes as a support for spelling, e.g. **aero**, **aqua**, **audi**, **bi**, **cede**, **clude**, **con**, **cred**, **duo**, **log(o)(y)**, **hyd(ro)(ra)**, **in**, **micro**, **oct**, **photo**, **port**, **prim**, **scribe**, **scope**, **sub**, **tele**, **tri**, **ex**

Year 6 Objectives

Whole-class approaches

- Investigation provide a number of words using the same root and invite children to identify the common root and its meaning.
- Give the root and its meaning and ask children to generate a list of words which contain both the letters and the meaning.
- Provide cards containing common prefixes, roots and suffixes, and ask children to construct known words from these.

Group tasks

- Use dictionaries to research and establish clusters of words using the same root.
- Create new words, e.g. aquaphone.
- Use etymological dictionary to research word histories.
- Investigate words based on numbers and research background, e.g. octo means 'eight' (Latin).
- Investigate other roots e.g. cede ('yield'), clude ('shut'), con ('together'), cred ('belief'), duo ('two'), hydro/a ('water'), photo ('light'), port ('carry'), scrib/p ('write'), scope ('look'), sub ('under'), tri ('three'), ex ('outside').

bi	two	bicycle	biped	binoculars	binary
aqua	water	aquarium	Aquarius	aquatic	aquaplane
aero	air	aeroplane	aerodrome	aeronauts	aerodynamic
super	greater	supernatural	Superman	supernova	superpower
micro	small	microscope	microfilm	microphone	microcosm
audi	hear	audible	audience	audition	auditorium
port	carry	transport	portable	import	export
trans	across	transport	transplant	transfer	transaction
prim	first	prime	primary	primrose	primate
auto	self	automatic	autograph	autobiography	automobile
phobia	fear	claustrophobia	arachnophobia	agoraphobia	xenophobia
ology	study	archaeology	biology	geology	zoology
tele	far off	telephone	television	teleport	telecom
graph	to write	autograph	telegraph	photograph	graphic
re	again	replay	reply	reconsider	repeat
pre	before	preview	prehistoric	previous	prevent

Year 6 Term 1

Objective 6

To investigate meanings and spellings of connectives: *therefore*, *notwithstanding*, *furthermore*, etc.; link to Sentence Level work on connectives

Whole-class approaches

- Start from a known text such as a report or journalistic writing. Highlight connectives and help class to work out their function – to connect.
- ◆ Identify phrases used as connectives, e.g. 'in addition', 'on the other hand'.
- Try substituting different connectives and consider how they change the meaning.
- Look at the position of the connective words or phrases. Where do they come in the sentence?
- Consider their features as words:
 - some are simple words like *and*, *so*, *but*;
 - some are connective phrases like in addition to;
 - some are compound words (possibly derived from phrases) like notwithstanding.

Group tasks

- Ask children to categorise connectives into simple and compound words. Compound words could be further split into two- and three-part words.
- Looking at the compound-word connectives, work out unknown meanings by looking at the separate parts of the word. Use a dictionary to check.

Extension activity

 Use a King James Bible or other old text such as a legal document, to find further connectives, e.g. *hereafter, howsoever, whomsoever*.

furthermore but henceforward notwithstanding since until whereas	then because whenever after nevertheless yet alternatively	however therefore as when while for	so and with although besides consequently	nonetheless moreover meanwhile if whatever whoever
--	--	--	--	---

- Connectives are words (or phrases) that can be used to link one sentence to another or to extend sentences.
- A connective can be a conjunction, an adverb or an adverbial phrase.
- Compound connectives behave like other compound words; that is, the two (or three) original words don't change their spelling.
